

Dear Sir/Madam,

Please be advised that it is important to follow the instructions below to perform this test.

- **Preparation for collection**

Pick up the containers already prepared for collection during Collection Point opening hours.

**Warnings**

- The container contains 50% ethyl alcohol.
- Keep the container tightly closed.
- Keep away from hot surfaces, sparks, open flames or other sources of ignition.
- Do not smoke.
- Do not ingest; do not leave the container within the reach of children.
- In case of accidental ingestion, contact the nearest emergency room.
- In case of skin contact, wash thoroughly with water; if contact is with the eyes, rinse thoroughly for several minutes. Remove any contact lenses if it is easy to do so, continue rinsing, and contact the nearest emergency room.

- **Collection instructions**

Collect 1 sample per day, for 3 consecutive days following the below procedures:

- a. Discard the first morning urine.
- b. Drink 1 glass of water.
- c. After 2 hours collect urine directly into the container up to the second mark. Below this, the sample is not considered suitable for examination.
- d. Use the containers according to the numbering on the label (**1** - first-day collection, **2** - second day collection, **3** - third day collection).

- **Sample storage and delivery**

- a. Samples collected from time to time should be stored in the refrigerator until the day of delivery, which should be done, for all 3 samples, to coincide with the collection of the 3rd sample.
- b. The sample must be received during the opening hours of the Collection Point. Cytology tests are not accepted on Saturdays.
